intertek AUTHORIZATION TO MARK

This authorizes the application of the Certification Mark(s) shown below to the models described in the Product(s) Covered section when made in accordance with the conditions set forth in the Certification Agreement and Listing Report. This authorization also applies to multiple listed model(s) identified on the correlation page of the Listing Report.

This document is the property of Intertek Testing Services and is not transferable. The certification mark(s) may be applied only at the location of the Party Authorized to Apply Mark.

Applicant: Tejer Technology Co., Ltd. **Manufacturer:** Tejer Technology Co., Ltd.
Address: 128 Halliang Road, Sanjia Subdistrict, Zhejiang, Taizhou, Zhejiang, 318000 **Address:** 128 Halliang Road, Sanjia Subdistrict, Zhejiang, Taizhou, Zhejiang, 318000
Country: China **Country:** China

Party Authorized to Apply Mark: Same as Manufacturer
Report Issuing Office: Intertek Testing Services Ltd, Zhejiang
Control Number: 2311271 **Authorized by:** for L. Matthew Snyder, Certification Manager

ETL

This document represents all product Authorizations to Mark for the noted Report Number.

Personal Hygiene and Health Care Appliances (UL 1431:2011 Ed. 3R1:30Apr2024)
Electrical Plumbing Accessories (UL 1961:2011 Ed. 2:17Jun2020)
Motor Operated Appliances (Household and Commercial) (QD 919) (CSA C22.3W8.2018 Ed. 8:U1:10)
Household Cooling and Liquid-Heating Appliances (CSA C22.284.2:019 Ed. 8)

Drawing(ADA)

Technology

03

Soft oxygen kinetic energy technology

ABS Nozzle

316 stainless nozzle body

316 stainless nozzle body+ABS nozzle

Using the Venturi principle, air is naturally inhaled during the cleaning process, allowing air and water to combine, making the cleaning water column softer and more comfortable.

Cleaning Mode

ULTRA-SOFT REARWASH

Patented technology supports full mixing of water and oxygen, making cleaning more comfortable

ULTRA-SOFT FRONT WASH

SPA-style gentle bubble water wash, care for women's cleanliness

LIGHT FRONT WASH

Umbrella-shaped water column, water mist for large-scale cleaning, special protection in special periods

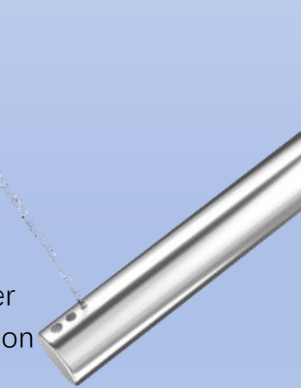

RHYTHMIC REARWASH

Stable water pressure, high-frequency pulse water flow, spot-type strong cleaning power

POWER WASH

Strong water flow stimulates the sphincter and promotes defecation

PROMOTING DEFECATE WASH

High water pressure strong flushing, direct to help defecation

X-Power Flushing Technology

Pump drive pressurization and mechanical flush stop. Under the double gathering force, powerful flushing force can be quickly released.

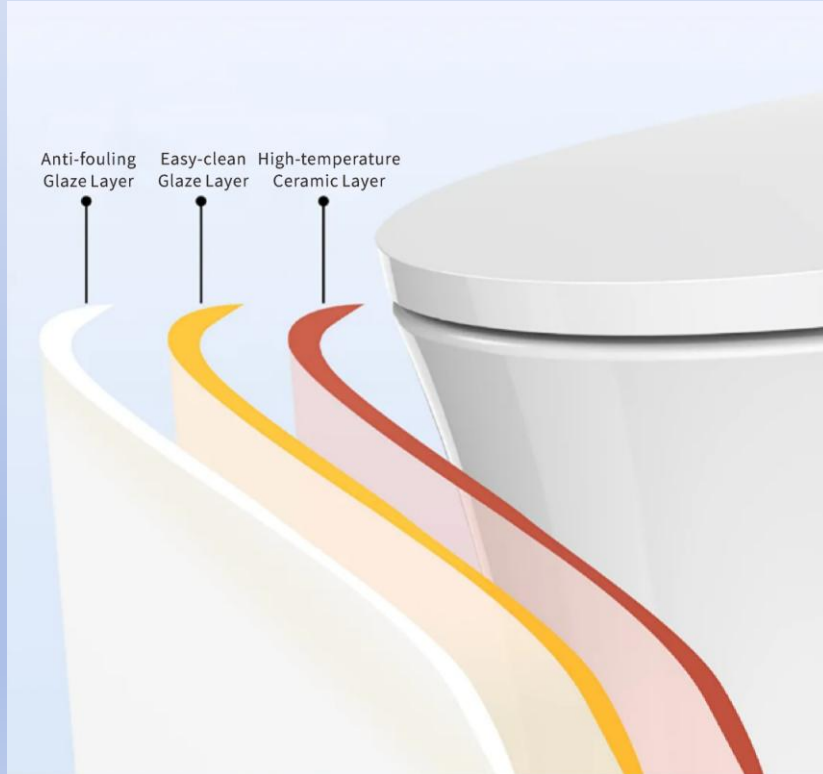

SYNCHRONOUS RAPID FLUSHING TECHNOLOGY

Pump drive pressurization and mechanical flush stop. Under the double gathering force, powerful flushing force can be quickly released.

Self-cleaning glaze technology

The ceramic is calcined at 1280°C and uses a self-cleaning glaze, which greatly improves the smoothness and glaze density. The water absorption rate is less than 0.3%, and it has good anti-fouling properties, making the toilet smoother and easier to clean.

Ultra-clean bubble shield technology☆

The bubble generator allows the bubble agent, air and water to be organically combined to produce rich and dense bubbles that cover the toilet water seal, thereby playing the role of "antibacterial, anti-fouling, odor-isolating and splash-proof", creating a refreshing toilet experience space.

Nozzle UV Sterilization

The nozzle uses UVCband, 275nm wavelength deep ultraviolet physical sterilization, double sterilization before and after water discharge. It starts 15 seconds after leaving the seat, and repeats every 4 hours, which is more efficient.

Large air volume drying

Equipped with a high-speed brushless motor, it blows out a large amount of air at a close distance, with a wind speed of about 15 meters per second, far exceeding the national standard of 4 meters per second, improving the drying efficiency.

SIAA Antibacterial Seat Ring

SIAA certified antibacterial seat, ergonomic, fast heating and evenly distributed heating points.

Average distribution of 30 heating points on the seat ring

Automatic Flip

The lid automatically opens when you get close to the front of the toilet and automatically closes two minutes after you leave. New butler mode and adjustment mode have been added.

Butler Mode

Anti-accidental touch: The automatic open function will be turned off within three minutes after the cover is closed manually.

Gesture Operation

The seat cover opens normally, and the seat ring can open it by waving hand in front of the seat ring.

Adjustment Mode

The sensing distance (20-100CM) and the speed of flipping the cover and turning the circle can be adjusted.

Urine Identification

If it senses the falling motion of liquid for more than 5 seconds within a range of 25 cm above the toilet ceramic, it will trigger an automatic flush when you leave.

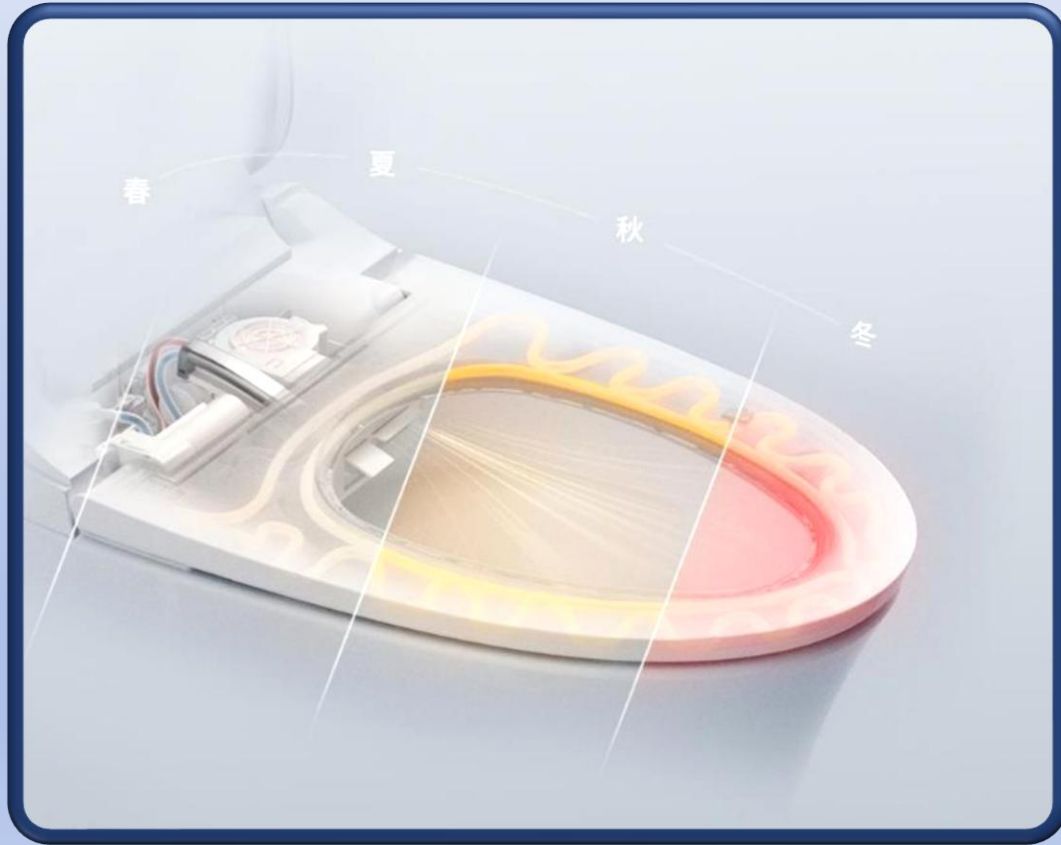

Foot sensor Technology

You can open the seat cover and seat ring by stretching your foot. According to men's toilet habits, you can use your foot to slide across the bottom sensor switch to realize the flushing function.

Intelligent temperature control technology

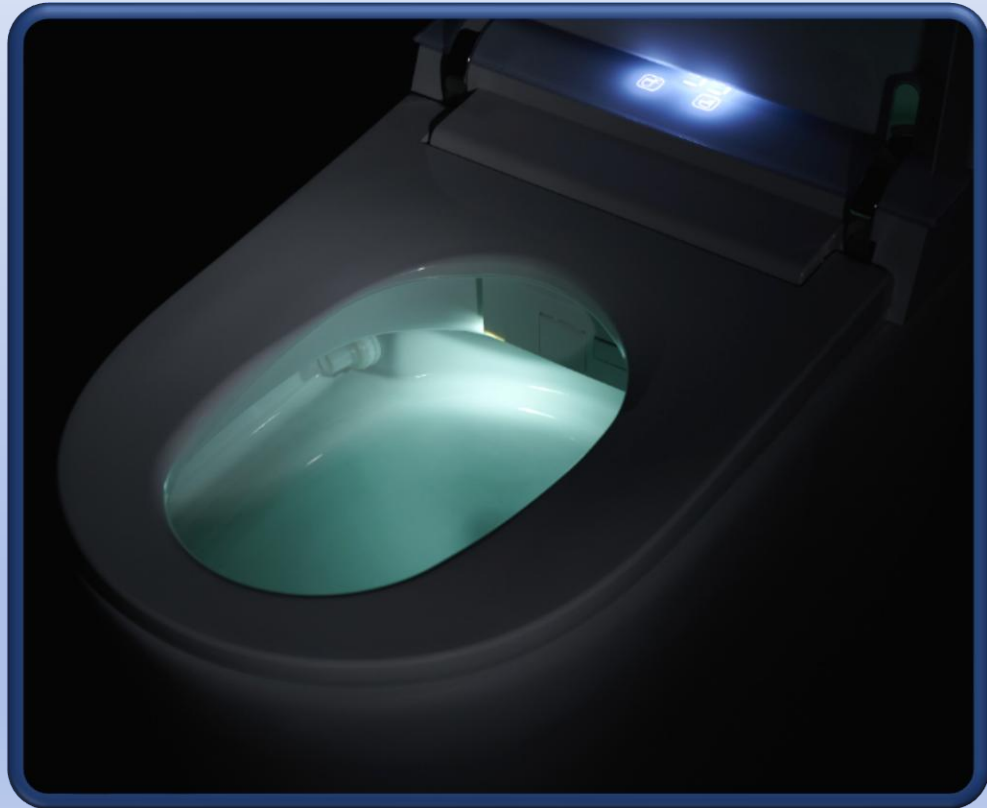

It can intelligently sense the surrounding ambient temperature and automatically adjust the seat temperature and cleaning water temperature according to the ambient temperature. It is like spring all year round, saving energy and electricity and worry-free.

Ambient Temperature	Water Temperature	Seat Temperature	Wind Temperature
<15°C	39°C	39°C	4th Level
15°C-25°C	36°C	33°C	3rd Level
25°C-30°C	33°C	Off	2nd Level
>30°C	33°C	Off	1st Level

Induction Light Night

Intelligently senses the brightness of the environment, automatically turns on the light-sensing night light in a dark environment, and no longer needs to grope in the dark when getting up at night. It automatically turns off when the environment is bright, which is convenient and energy-saving.

Features & Functions
