

## Company Profile

Baoding Haoxu Electrical Technology Co., Ltd. is located in the National High tech Development Zone of Baoding City, Hebei Province, China.

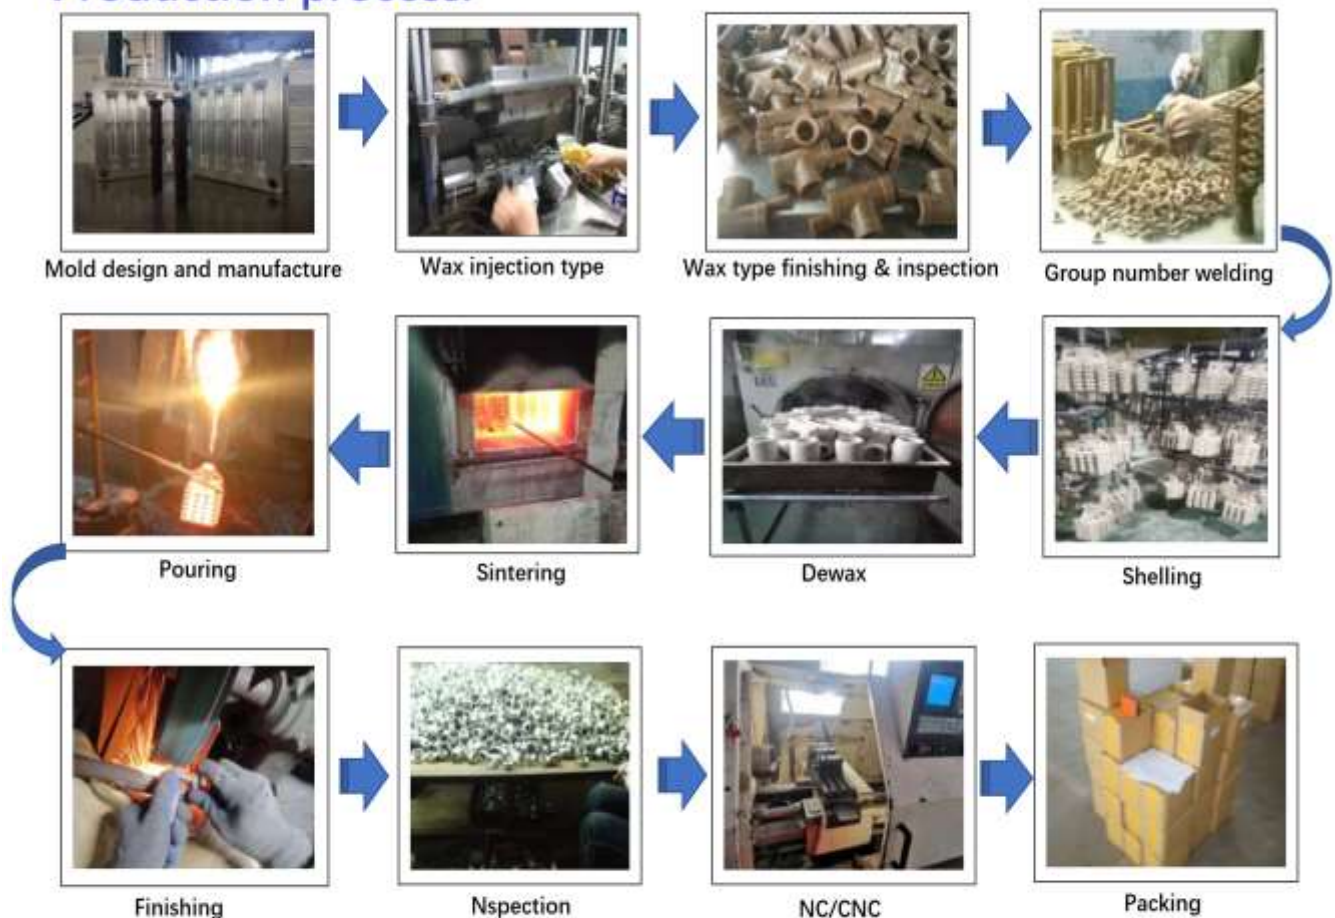

We are a professional company engaged in the design and manufacturing of metal and mechanical products. We are ISO9001:2015 certified and have been awarded the national high-tech enterprise authentication.

We provide casting, machining, welding, sheet metal stamping and assembly, as well as various surface treatments. We provide multi process production solutions for various industries under strict quality control. Typical materials include stainless steel, carbon steel, alloy steel, copper, aluminum and plastic.

Our products are exported to developed countries such as South Korea, Japan, the United States, Germany, the United Kingdom, Italy, and France. The product categories include pump valves, pipe fittings, mechanical components, container components, agricultural machinery and automotive accessories, hardware, rigging and lifting accessories, instrumentation and electrical parts, medical, catering and food equipment components, etc.

Our philosophy is providing customers with reliable product development solutions and strict quality control processes. In the mean while, we provide customer with reasonable production costs and on-time delivery. Meeting customer needs is our goal, so that our customers no longer worry about the production process of their products. We looking forward to cooperating developing with you together.
